

CREATION EXISTENCE

Over 1 billion years ago the earth trembled with might
boiling chambers were hidden from sight.
Red hot magma settled and cooled very slow.
Deep within precious metals did flow.

IDENTIFICATION

Sunstone bright, moonstone blue,
platinum, silver and gold; to name a few.
You look up into the black starry night,
see the metals that shine so bright.
All to be seen in Georgia Midnight (Georgia Midnight).

DREAMS

Man reaches for health and wealth throughout his life.
And dreams of finding happiness with his loving wife.
Sometimes God looks down and places His direction
upon certain men to discover His hidden collections.

ADVENTURE

You may search for lodes in foreign lands,
find your gold in California heavy sands.
Alaska streams have made their claim,
but I'll stake mine on midnight fame.

ROMANCE

Look deeply and you'll see within my eyes
all the majestic beauty of midnight skies,
way high above the trees somewhere afar
near the heavens where the brightest stars are.

MYSTERY

Forever north, forever south; magnetic force
Georgia Midnight will stay your course.
Where north meets west, you make your mark
point east where it's best to start.

IDENTIFICATION

Sunstone bright, moonstone blue,
platinum, silver and gold; to name a few.
You look up into the black starry night,
see the metals that shine so bright.
All to be seen in Georgia Midnight (Georgia Midnight).

FAITH

As sure as the southern winds embrace me,
the motherlode this time must not escape me.
The dreams I never thought I'd find
so rich down in those Georgia pines.
